

This Tutorial is dedicated to Clive Thelning and Camille Bridges both students and very special friends who challenged me to develop this concept. The idea was originally created for blind and vision impaired people, and now I have redesigned the concept and recorded this collection of music lessons so that it can be enjoyed by 'anyone' who wants to play the keyboard without the need to read music.

1. Introduction	1.23
2. Where to start	1.21
3. Fingering description and black key orientation	2.22
4. Finding notes C, D and E	3.11
